

Tar & Asphalt Remover

Product Description

Tar & Asphalt Remover is a heavy duty, liquid cleaner designed to dissolve and remove grease, oil tar, asphalt and adhesives from floors, walls and equipment. It also removes tree sap and is effective on automobile undercoating.

DILUTION INFORMATION

Use product straight.

APPLICATION

Spray or brush onto the surface to be cleaned. Thoroughly rinse with water. Product works best when applied to a dry surface. For tough spots, apply directly to spot, let stand and agitate with brush, then rinse with water. If spots persist, repeat procedure.

NOTE: If using this product on painted surfaces, colored fabric, synthetic fabric or plastics, test before application in an inconspicuous location to determine suitability.

SAFETY

Must read MSDS before using product. Use precautions when handling product. Always wear eye protection, gloves, apron and recommended personal protection.

Key Features

- Biodegradable
- Fast acting
- Removes adhesives
- Works on tree sap
- Works on automotive undercoating
- Effective on walls, floors and equipment
