

# Alumasafe Powdered Parts Wash

## Product Description

Alumasafe Powdered Parts Wash is a biodegradable, water-soluble parts wash cleaner with powerful surfactants, builders, wetting agents and emulsifiers. It's low foaming and penetrates deeply into dirt, oil, grease, carbon build-up and other stubborn debris to dissolve and emulsify so it can be freely rinsed without being re-deposited on the cleaned surface.

### DILUTION INFORMATION

Place product into hot tank for cleaning heads, manifolds and part  
 ¼ - ½ cup per gallon of water

### APPLICATION

Heat solution from 150°F (Min) to 180°F (Max). Spray or soak parts. Rinse parts if needed.

### SAFETY

Must read MSDS before using product. Use precautions when handling product. Always wear eye protection, gloves, apron and other recommended personal protection. Always use product with proper ventilation.

## Key Features

- Biodegradable
- Low Foaming
- Water-soluble

## Specifications

Appearance	White	Odor	None
PH (1% solution)	11.5 – 11.9	pH (undiluted)	N/A
Flash Point	None	Weight	N/A
Biodegradable	Yes	Percent VOC:	None
Solubility in water	Complete		

Available in bulk and package sizes 400 lbs., 100 lbs., 50 lbs.
