

# AUTO-FOAM CAR WASH

## Product Description

This biodegradable, super concentrated, high foaming, liquid detergent is formulated for the friction cycle of the full-service car wash. It contains non-toxic wetting agents, emulsifiers and detergents that are non-corrosive. It also provides lubricating properties that help protect car finishes from scratches and brush marks during the friction process. It can be used in automatic car wash systems, pressure washers, or for manual washing.

### DILUTION INFORMATION

Light Soil: ½ ounce of cleaner per gallon of water  
 Medium Soil: 1 ounce of cleaner per gallon of water  
 Heavy Soil: 2 ounces of cleaner per gallon of water

### APPLICATION

Spray, brush, foam or manually apply to cars, trucks, trailers and buses. Agitate and let solution stand for 1 to 3 minutes. Pressure rinse with clean water. Results are best if washing is not done in direct sunlight.

### SAFETY

Must read MSDS before using product. Use precautions when handling product. Always wear eye protection, gloves, apron and recommended personal protection.

## Specifications

Appearance	Clear Yellow	Odor	Mild soap
pH (1% solution)	7.0 -8.0	pH (undiluted)	6.2 -6.7
Flash Point	None	Weight	8.4 – 8.6 lbs./gal
Biodegradable	Yes	Percent VOC's	<1.0 %
Solubility in water	Complete		

Available in 55 gallon drum and 5 gallon pail

## Key Features

- Biodegradable
- Economical and effective at low concentrations
- Fast Acting
- Use in hot or cold water
- High foam for maximum surface cling
- Easy rinse
