

Tough Stuff

Product Description

Tough Stuff is a product that removes cement and ready-mix buildup from truck, forms, and tools. It dissolves and penetrated dried cement so that it can be loosened and flushed away. Unlike traditional acid cleaners that are highly corrosive to skin, this product is categorized as a skin irritant – milder for end users but potent enough to dissolve cement deposits. No annoying fumes.

DILUTION INFORMATION

Use product straight or contact sales representative for additional information.

APPLICATION

Wear eye protection and gloves. Use with a bucket and brush system. Apply to the surface of the truck. Let sit for 2 minutes and rinse off. Then wash the truck with *Transportation Cleaner* for best results. If using a spray-on application, use a low-pressure sprayer to avoid splashing.

SAFETY

Must read MSDS before using product. Use precautions when handling product. Always wear eye protection, gloves, and recommended personal protection.

Key Features

- No annoying fumes
- Non-corrosive to metals
- Biodegradable
- Phosphate-Free
- Milder for user than acid cleaners

Specifications

Appearance	Clear to Pink	Odor	Neutral
pH (1% solution)	NA	pH (undiluted)	0.5 – 1.5
Flash Point	None	Weight	9.33 – 9.58
Biodegradable	Yes	Percent VOC's	<0.1
Solubility in water	Full miscible		

Available in bulk, 265 gallon tote, 55 gallon drum and 5 gallon pail
